Correction to: ***American Journal of Pediatrics*** 2026, Vol. 12, No. 1, pp. 34–38
https://doi.org/10.11648/j.ajp.20261201.15

In the original version of this article published online, an important paragraph detailing diagnostic investigations was inadvertently omitted from Section 2 ("Clinical Case").

Section 2 has now been updated to include the missing paragraph immediately following the paragraph ending with "... with no evidence of bronchial or vascular malformations (Figure 2)" and directly before the Figure 1 ("Figure 1. Perihilar atelectasis..."):

"The immunological workup was unremarkable, with negative HIV serology and normal immunoglobulin levels and lymphocyte subsets. Sweat conductivity testing using the Nanoduct system was performed twice, yielding elevated values of 93 and 112 mmol/L (NaCl equivalents), respectively. The fecal elastase concentration was markedly reduced at 5 µg/g, indicating severe exocrine pancreatic insufficiency. Microscopic examination of a sputum specimen revealed Gram-positive cocci, but the culture was negative."

The preceding paragraph, ending with "... with no evidence of bronchial or vascular malformations (Figure 2).", remains unchanged. The following paragraph begins "Given the clinical presentation, the diagnosis of cystic fibrosis was established." No other changes were made. The scientific validity and main conclusions of the article are unaffected.
